

HOTEL NEW YORK

ROTTERDAM BY WESTCORD

HOTEL NEW YORK

She is a beacon on Rotterdam's South Bank. A reminder of the rich history of Rotterdam's steamship era, while at the same time a symbol of urban renewal: Hotel New York. **The Grand Old Lady** is as stately as she is hip, and as classic as she is contemporary. The former headquarters of the Holland-America Line has, in its second life as a hotel and café-restaurant, been welcoming adventurous tourists, travelling businesspeople, hungry diners and loyal Rotterdammers for more than a quarter of a century. Its distinctive green towers, natural hospitality and unique location on the Maas make Hotel New York an icon in Rotterdam and a household name far beyond.

Meetings & Events

Clicking suitcases. Tapping heels. The Library fills with sharp suits and tailored business attire. With the Maas still in their hair, business guests trickle in. The coffee is steaming, but the champagne is already chilled. Deal or no deal? Today, those final important contract negotiations take place. And what could be more inspiring than doing business with a view of the Maas?

Discover the Library and our other rooms too: the Ballroom, Blue Room, Tuschinski I and II, and the authentic directors' rooms Reuchlin and Plate, where the spirit of the founders of the Holland-America Line still lingers. From a meeting, workshop or presentation to an intimate dinner, private Afternoon Tea, family celebration or corporate event. Or will you, like so many other couples before you, experience your dream wedding here?
